EDUCATION

University of Minnesota, Twin Cities

Minneapolis, MN

College of Science and Engineering

May 2027

- Bachelor of Science
- Computer Science major
- GPA: 3.815 / 4.000
- Dean's List: Fall 2024, Spring 2025, Spring 2026

SKILLS

Technical Skills: Python, Java, Javascript, C, C++, C#, HTML, R, x86-64 Assembly, OCaml, Figma, Excel,

WORK EXPERIENCE

B-Side Indie Music Cafe - Project 37 Non-Profit

St. Cloud, Minnesota

Barista Cashier and Music Performer

June 2025 – August 2025

- Helped to establish a small non-profit business in my hometown which has become very successful.
- Created meaningful customer connections, performed music for general audiences, handled cash, assisted with stocking and inventory, prepared and served beverages, and maintained a clean workspace.
- Increased patronage by over 150% and was responsible for at least 15 loyal customers.

PROJECT EXPERIENCE

Hivemind (Placeholder Title), User Experience

July 2025 – August 2025

- Used UX practices including user studies, ideation, and low fidelity prototypes to create an application idea to help users connect with groups and events in their local community.
- A guerilla tested Figma prototype was finalized with a group and I aim to make the prototype into a usable program.

Gopher Gym (Working Title), 0-1 Start Up Club

September 2025 – Present

- Ongoing start up idea which is currently in the process of being developed in association with 0-1 start up club.
- Will initially be an app for students at the University of Minnesota to connect with other students over compassion for fitness and the university's Recreation and Wellness Center.

ACTIVITIES

Vocal U A Cappella

Minneapolis, Minnesota

Active Member

September 2024 – Present

- Performed for general audiences and judges at many shows including ICCAs, the Minnesota State Fair, and Target Field for a Minnesota Twins Game.
- Collaborated and made meaningful connections with students in non-Computer Science careers.

0-1 Start Up Club

Minneapolis, Minnesota

Entrepreneur

September 2025 – Present

- Helped to fulfill the club's initiative which is to make the University of Minnesota one of the best entrepreneurship schools in the country.
- Originated the idea for the Gopher Gym start up and collaborated with other club members in computer science.

AI Innovators Society

Minneapolis, Minnesota

Director of Outreach

September 2025 – December 2025

- Handled promotion and outreach for the club via in person presentations and social media.
- Gained technical expertise, leadership skills, and business insights revolving around artificial intelligence.
